

Quick Installation Guide: Windows®

Standalone Operating Systems

Thermo-Calc Version 2020b

Windows® Standalone Quick Install Guide

This quick guide helps you do a full or demo standalone installation. A *standalone* installation is used with the Single-User Node-Locked License (SUNLL), where the software and the license file are together on one computer.

This guide is applicable to:

- Windows operating systems
- Full Standalone installation (SUNLL)
- Demo installations – during the installation you only need to do steps 2 and 3.
- Upgrading to a new standalone version of Thermo-Calc (maintenance plan only)

If you have installed Thermo-Calc, press F1 to search the help or go to [License and Installation Types](#) for instructions for other operating systems and network installations. Otherwise, this information is contained in the *Thermo-Calc Installation Guide* included with your installation or available on our website.

Request a License File

Demo (trial) installations: Skip this section. A license file is automatically installed with the software. You do not need to request it.

Upgrades to a new version of Thermo-Calc: Skip this section if you are upgrading to a new version of Thermo-Calc and (and you have a maintenance plan). Your license is sent to you in an email from Thermo-Calc Software AB. Save it to your computer to use during software installation.

1. To access the computer information you need to provide to get a license, start Thermo-Calc and select **Help → Show License Info**.

License Information

```

License diagnostics program
  build:   created: Wed Oct 11 09:15:37 2018

Log generated at: 09-11-2018 09:15:39
Safenet environment variables
  LSHOST:  NO-NET
  LSERVERC: C:\Program Files\Thermo-Calc-academic\<version>\LSERVERC

Local (client) info
  hostname:          amanda
  license version:  8.5.1.0017
  ethernet:         F0-D5-BF-4E-CA-D7

```

- Copy the information from the **License Information** window. A lot of information may be shown below the initial screen, so make sure you scroll down to the end when you select and copy the window's contents. (Alternatively, you can copy the same information from the console by using the SYS module command DISPLAY_LICENSE_INFO.)
- Send an email to support@thermocalc.com. Make sure to include the following in the subject line:

License diagnostic information from <Name> where Name is replaced with your **name**, the **organisation name** and the **Site Number**. *You can find the five-digit site number on an invoice or any correspondence from Thermo-Calc Software.*

- A representative from Thermo-Calc Software replies to the email and attaches your license file(s).
- Save the license file(s) to your computer or network.

Install the Software

Step 1: Download and run your Thermo-Calc installation software

Administrative rights are required to complete this installation.

1. For web links sent in an email from Thermo-Calc Software, go to the URL and log in with the information provided. Then navigate to the Windows folder and click the link to download the software.
2. Go to the folder where you downloaded the software. Right-click the **.exe** file and choose **Run as administrator** to launch the **Setup** program.

3. On the **Setup-Thermo-Calc** window click **Next**.
4. On the **License Agreement window** click to accept the license agreement. Click **Next**.

Demo (trial) installations: Your installation starts and is done when the **Completing the Thermo-Calc Demo Setup Wizard** opens. Click **Finish** and start using Thermo-Calc.

Step 2: Select the installation mode

1. In the **Select Installation Mode** window click **Full Standalone: Install all features**.

The TC-Python program is installed when the **Full Standalone** or **Full Network Client** option is chosen, but there are additional steps required as described separately for this SDK.

2. For a **Full Standalone** installation, in the **Choose a license file** field either enter the file path or click the file button  to navigate to where you saved the license file emailed to you from Thermo-Calc Software.

**Select Installation Mode**

Full Standalone
 Install all features
Choose a license file

The license file is called **lservrc**. Click **Next**. To prevent errors, leave this field blank if you did not get a license file yet.

3. TC-Python is installed for all users even if you do not have a license. The **Install TC-Python** window is a reminder that additional installation procedures are required after Thermo-Calc is installed. Click **Next**.
4. In the **Ready to Install** window click **Next**. Click **Finish** and start using Thermo-Calc.
